## **Here is everything you need to know about what is going on with V2K AND STUFF YOU DON'T WANT TO KNOW**

["Recorded sounds that plagued U.S. diplomats in Cuba just crickets hard at work"](#) by John Hickey — THIS IS 100% FALSE!

Hello my name is Anthony Arellano, and I am about to show you what the real SONIC/HEALTH ATTACKS ARE AND WHAT THEY ARE USED FOR!

Words and phrases that should be looked up:

SPOOFED GPS,

SONIC/HEALTH ATTACKS,

MICROWAVE AUDITORY EFFECT HEARING.

BSPK/BINARY METHOD,

FREQUENCY MIXER, AND THE MOST IMPORTANT ONES, SUPERPOSITION BEAT

FREQUENCY,

MICROWAVE AUDITORY EFFECT HEARING.

THESE ARE WHAT CAUSE THE "CRICKET" SOUND THAT THE DIPLOMATS IN CUBA, CHINA, AND RUSSIA HEARD.

I have uncovered what a SONIC/HEALTH ATTACK does , how it is made, and what it is made for yes I KNOW WHAT THIS TORTUOUS DEVICE DOES AND HOW IT IS PRODUCED! My family I are being tortured with a SPOOFED GPS SIGNAL WITH FREQUENCIES ADDED TO THE L1 1575.42Mhz PORTION OF A GPS SIGNAL. I have shared my research of our torture with all of you, but now I would like to share, what I believe to be, the "WHY". Now to understand the "WHY" we have to understand the "HOW", and "WHAT" this weapon does. When frequencies are woven in to the L1 1575.42Mhz, using BSPK/BINARY method - frequency mixer, and then sent out around their target 5 things happen.

1. A GPS signal generator is used to make a SPOOFED GPS signal and Hz, Khz, and Mhz frequencies for torture, SURVEILLANCE and mobility of signal frequencies Those frequencies that are mixed, with the L1 1575.42MHZ portion of the spoofed GPS signal using BPSK MODULATION, have the very same properties as when they started to when they finish their job. Meaning if it is a Television frequency it can be used for video - "RADIO-FREQUENCIES can be used for communication, Sent (mic, frequency phone, 2 way radio, bluetooth) and recieved (speaker, cochlea, yes the inner ear).Now all of this creates a medium for SURVEILLANCE and harassment. SURVEILLANCE can be done by dialing up inserted frequencies with an SDR/RASBERRY PI tuner and listening to target SURROUNDED by the SPOOFED GPS signal. CHECK MY RESEARCH. All of this is the joined together with a Rubidium atomic clock signal (Standard Frequency Time Signal) which gives the user control of the GPS signal. And works with a maser this will come into play later.

2. Microwave Auditory Effect Hearing... <https://www.ncbi.nlm.nih.gov/m/pubmed/17495664/>  
This process works when Radio-frequencies are joined together with microwaves, microwaves being the L1 1575.42 Mhz, C/A Code 1.023 Mhz, and L2 1227.60 Mhz these are all microwaves. CHECK MY RESEARCH. When Microwaves and frequencies intertwine they create "Microwave Auditory Effect Hearing" which warms up the cochlea and makes it swell making RADIO-FREQUENCIES bounce off and becomes sound, MEANING AND I KID YOU NOT! IF THE TERRORISTS WHO SENT THE SPOOFED GPS/ SONIC/HEALTH ATTACK INSERT A RADIO FREQUENCY SEND THE SPOOFED GPS SIGNAL OUT AND THEN DIAL IT UP ON A FREQUENCY PHONE THEY CAN LITERALLY BYPASS THE EAR CANAL AND EARDRUM GO TO THE SWOLLEN COCHLEA, FROM L1, CA CODE, AND L2 MICROWAVES BOUNCE OFF AND PRDUCE SOUND , A TELEPHONE CALL, THAT NO ONE ELSE CAN HEAR UNLESS YOU HAVE BEEN WARMED BY THE SPOOFED GPS SIGNAL'S MICROWAVES. CHECK MY RESEARCH!. Now keep in mind that phones can be made into frequency phones for \$15.00

CHECK MY RESEARCH! Also radio phones and bluetooth frequencies can be added to the L1 1575.42MHZ and/or L2 1227.60MHZ and now that the target can hear radio frequencies POOF YOU HAVE V2K VOICE to SKULL making the target think they are having auditory hallucinations, but the voices are real.

"The microwave auditory effect, also known as the microwave hearing effect or the Frey effect, consists of the human perception of audible clicks, or even speech, induced by pulsed or modulated radio frequencies. The communications are generated directly inside the human head without the need of any receiving electronic device."~Wikipedia~

And <https://ieeexplore.ieee.org/document/979546> The reason scientist were not as successful with Microwave AUDITORY EFFECT HEARING in the past is because they did not combine the microwave signal and the radio frequencies together on a carrier signal like combining both on a Modified GPS SIGNAL, SPOOFED GPS SIGNAL, OR SONIC/HEALTH ATTACK. CHECK MY RESEARCH! Now this and "SUPERPOSITION BEAT FREQUENCY" are what make up the

cricket sounds of a SONIC/HEALTH ATTACK. CHECK MY RESEARCH! Now to our 3rd "HOW"&"WHAT".

3. SUPERPOSITION BEAT FREQUENCY <https://courses.lumenlearning.com/physics/chapter/16-10-superposition-and-interference/> This is when more than one similar frequencies (sine wave) are put in the same place at the same time which then makes a destructive and constructive audio. This is the majority of the cricket sound which is generated with a SPOOFED GPS signal SONIC/HEALTH ATTACK. Crickets and pesticides.. give me a break who is on the payroll?

Now I can only guess why our American diplomats were hit with this tortuous weapon .. SURVEILLANCE, but in our case I really do feel like we know why this is being done. We seem to not be part of our neighborhood watch (GANG) I HOPE YOU NOTICED I LEFT OUT "CRIME" from neighborhood watch. The people we believe are doing this are educated, EX-MILITARY, and housewives.. no really housewives. We have been to the local police many times trying to explain frequency burns, that just happen out of thin air, and a buzzing noise that only happens to people who have had their cochlea warmed up with microwaves that doesn't look crazy right? Plz now add in them yelling at you through a 2 way radio connecting to the INSERTED frequencies that only, once again, people with warmed cochlea's can hear. Yelling things like "FAGGOT", "WE WANT YOUR FAMILY OUT OF HERE!" and only people with warmed cochlea's can hear this.

Now what would be a person's first instinct? It would be to react, I would think and how would it look if you were to respond to a comment, or question, that no one else could hear? You would look a little nuts.. I know first hand. Now I have letters from different doctors stating that I "DO NOT HAVE AUDITORY OR VISUAL HALLUCINATIONS!" we have had one of our dogs attacked by people in this neighborhood with bats. They broke his jaw and legs we had to put Dylan to sleep. We have had our dog piper burned MULTIPLE times with laser pointers we are living in a microwave... not a joke

4 Now let me get to the 4th and most bizarre part of this weapon. A spoofed GPS signal/ SONIC/HEALTH ATTACK has ; Microwaves, Radio frequencies, radiation, excited photons and atoms, oscillation, and an atomic maser clock. Now if someone were to point a laser right through this Spoofed GPS signal it would become a maser. A maser will warm the moisture in a body making it feel like a burn but leaves no mark because it is a microwave laser and works similarly to a regular kitchen microwave, The only thing missing is a laser to excited and attract all that is needed to become a maser. Well there you go. Couple of things ... you can see a SPOOFED GPS signal SONIC/HEALTH ATTACK with a thermal camera and the radio frequencies will cause everything to rust around the target. I also had to add the "Rust and Bolt Effect" when radio frequencies are in the path of radio signals they rust [https://en.m.wikipedia.org/wiki/Rusty\\_bolt\\_effect](https://en.m.wikipedia.org/wiki/Rusty_bolt_effect)

ARMY AND ARMY SIGNALS SATELLITE AND DIRECT/LAN COMMUNICATIONS ...

...SPOOFED GPS SIGNALS...

...SONIC/HEALTH ATTACKS...

...these all have.....

Modifications made to GPS signals L1 1575.42MHZ, C/A Code 1.023MHZ, and/or L2 1227.60MHZ are the basic building blocks for Army, and Army Signals Satellite Communication, they are basic building blocks for Spoofed GPS signals, and finally they are the basic building blocks for surveillance/touchless microwave weapons/torture. I have said the presence of ex-military our are are plentiful and my family and I do believe that there are ex-military PERSONNEL involved in the torture we are receiving.

I discovered all of this because of the torture my family and I are enduring. Every time we would have something happening I would spend at times months trying to find out what was happening. Try and find something that burns you doesn't burn anything else and doesn't leave a mark. Yeah I figured that one out!

*[see next pages; the rest of this page is left blank]*

# DIAGRAMS AND PHOTOS

Thermal cameras use radiation from in the *far infrared* region of the spectrum, while IR night vision cameras use light in from the much higher frequency range of *near infrared* region. They may both seem like minor variants of "infrared" to the uninitiated but differences in the spectral ranges are very different: the range of wavelengths for the near infrared is 0.75–1.4 um (micrometers) while the the thermal imaging range is 8–15 um. Each of the those range covers about an octave, but they are separated by over 2 octaves. In contrast, the near IR range and the visible light range are right next to each other. Thus, the near IR range has more in common visible light than it does with the thermal imaging range. (I know, "octave" is usually a music term, but it is handy in this case to mean the high end of a range is twice the low end.)

## Code Modulation of L1 GPS Carrier

Microwaves are a form of electromagnetic radiation with wavelengths ranging from about one meter to one millimeter, with frequencies between 300 MHz (1 m) and 300 GHz (1 mm). ... Rather, it indicates that microwaves are "small" (having shorter wavelengths), compared to the radio waves used prior to microwave technology.

BPSK BINARY PHASE SHIFT KEY MODULATION

SIGNALS/FREQUENCIES ARE MADE AND STANDARD FREQUENCY TIME SIGNAL MADE FROM THE ATOMIC CLOCK FOR CTRL OF GPS

SIGNALS ARE THEN FUSED TO THE L1 1575.42MHZ AND/OR L2 1227.60MHZ CARRIER SIGNALS TO BE SENT OUT ON TRANCIEVER. USING THE BPSK BINARY PHASE SHIFT KEY MODULATION

TARGET

A graphic featuring a house silhouette with arrows pointing away from it, labeled 'SONIC/HEALTH ATTACK' and 'MICROWAVE RADIATION'. The house is labeled with 'HZ', 'KHZ', and 'MHZ'. Below the house is the address: 82459 Deborah Dr, Indio Ca 92201.

# SONIC/HEALTH ATTACK "CRICKET SOUND"

"SUPERPOSITION BEAT FREQUENCY" HAPPENS WHEN MORE THAN ONE FREQUENCY IS IN THE SAME PLACE AT THE SAME TIME ie MUTIPLE FREQUENCIES PUT INTO THE L1 1575.42MHZ PORTION OF SPOOFED GPS SIGNAL

PLEASE HELP US I HAD TO UNCOVER WHAT THIS WEAPON IS BECAUSE WE ARE BEING TORTURED

MICROWAVE AUDITORY EFFECT HAPPENS WHEN MICROWAVES

MIX WITH R.F. L1,L2, and C/A code are low frequency microwaves

HZ, KHZ, & KHZ ARE USED FOR TORTURE & SURVEILLANCE  
HZ INFRASOUND  
KHZ COMMUNICATION
